

# DINNER TABLE DOUBLE DIAGONALE

DESIGNER: INDIA MAHDAVI

A sculptural table, created by French architect and interior designer India Mahdavi, on which the twisted ceramic base protrudes and supports the top. The contortion on the large ceramic base is a technical feat.

Ceramic is one of India's most cherished materials due to its paradoxical characteristics: both warm and cold, masculine and feminine, classic and modern. The table was created for an unbuilt project located on Barcelona's diagonal avenue.

## CARE INSTRUCTIONS

Clean with a soft cloth dampened with water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture.

At first, don't place objects such as vases, books and coasters on the table since this can lead to changes in colour of the surface. After that, avoid allowing objects to remain too long in the same place on the table since this might lead to darkening of the wood. In addition, avoid exposing the furniture to major changes in temperature and humidity.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
