

# COFFEE TABLE 2139

DESIGNER: JOSEF FRANK, 1952

Josef Frank was fond of the round shape. It is seen in many of his designs, both the windows in his architectural works and in the many mirrors. Coffee table 2139 combines the round shape with Josef Frank's typical coamings. It was characteristic of Josef Frank to mix different materials and by making the table top in Elmroot and the rim and legs in walnut, he wanted to create a vivid expression. Coffee table 2139 was designed for Svenskt Tenn in 1952.

## CARE INSTRUCTIONS

Svenskt Tenn's furniture is made from wood that is varnished or coated. Clean with a soft cloth dampened with mild dish detergent or soapy water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture.

At first, don't place objects such as vases, books and coasters on the table since this can lead to changes in colour of the surface. After that, avoid allowing objects to remain too long in the same place on the table since this might lead to darkening of the wood. In addition, avoid exposing the furniture to major changes in temperature and humidity.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
