

DESK 1022

DESIGNER: JOSEF FRANK, 1940s

This desk was called the “Schatull” desk or “writing case”. With its sleek legs and drawers just in the frame, it is reminiscent of a travel case from another era. It is made of different types of wood: Santos palisander for the top, mahogany for the frame and stand and a light birch stripe for decoration. The desk was designed by Josef Frank in the 1940s.

ITEM NR:	100241
HEIGHT:	72 CM
WIDTH:	63 CM
LENGTH:	130 CM
MATERIAL:	MAHOGANY, SANTOS PALISANDER VENEER

CARE INSTRUCTIONS

Svenskt Tenn's furniture is made from wood that is varnished or coated. Clean with a soft cloth dampened with mild dish detergent or soapy water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture.

At first, don't place objects such as vases, books and coasters on the table since this can lead to changes in colour of the surface. After that, avoid allowing objects to remain too long in the same place on the table since this might lead to darkening of the wood. In addition, avoid exposing the furniture to major changes in temperature and humidity.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
