

TABLE LAMP “SHADOW 1”

ESTRID ERICSON’S aesthetic environments and Josef Frank’s versatility inspired Harri Koskinen when he designed the floor lamp and table lamp for Svenskt Tenn. A visit to the store on Strandvägen 5, with its homey environments and greenery, were the basis for the idea of transforming a Monstera, into beautiful lighting. Thin slits in the leaves form decorative shadows on walls and ceiling. Brass was an obvious choice to work with – a warm material, which creates pleasing reflections, where the play between light and shadow come into their own
