

## CARPET VIENNA

**EVA SCHILDT'S WOVEN "VIENNA" CARPET** was inspired by Josef Frank's Vienna and the city's blossoming cultural life around the turn of the last century. The artist Gustav Klimt often painted flat backgrounds with seemingly two-dimensional chess squares and circles. The double weave technique made the carpet's random expression, with miscellaneous squares in different sizes, possible. The colours are the same ones as in Josef Frank's Aralia print.

# CARPET VIENNA

**MATERIAL** Cotton/linen.

**CARE INSTRUCTIONS** Svenskt Tenn's cotton carpets are woven with cotton rags on linen yarn. In the beginning, the cotton rags may shed threads. This is part of the rag rug look and character and will stop after a times use. The rug is woven from rags of coloured cotton, they may fade, especially if the rug is placed in direct sunlight. It is recommended to rotate and turn the rug over in order for it to fade evenly.
