

CHEST OF DRAWERS 2170

DESIGNER: JOSEF FRANK, 1954

This chest of drawers, which Josef Frank designed for Estrid Ericson in 1954, was for the hall in her summer house in Tyresö, hence the name "Tyresö Chest of Drawers". Some characteristic details are the brass legs and puck-like feet.

CARE INSTRUCTIONS

Svenskt Tenn's furniture is made from wood that is varnished or coated. Clean with a soft cloth dampened with mild dish detergent or soapy water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture.

At first, don't place objects such as vases, books and coasters on the table since this can lead to changes in colour of the surface. After that, avoid allowing objects to remain too long in the same place on the table since this might lead to darkening of the wood. In addition, avoid exposing the furniture to major changes in temperature and humidity.

Clean the brass legs and fittings with a soft cloth. For a deeper cleaning we recommend a gentle, non-abrasive brass polish. Avoid using brushes, steel wool, polishing cloths, sponges and the like since the surface of brass is sensitive to objects that can scratch. Also avoid lengthy contact with oxides that can cause permanent damage. To avoid water damage, keep surfaces dry with a soft cloth.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
