

SOFA 703

JOSEF FRANK DESIGNED this long, spacious sofa in the late 1930s. The back of the sofa is divided by cord which adds to the exciting details. According to Josef Frank, the modern home should be a place for rest and comfort. Cushions and a double-spring system provide maximum comfort. Sofa 703 comes in two sizes.

SOFA 703

MATERIAL Wooden frame. Core of coil springs on a no-sag spring base, stuffed with foam rubber/polyether and synthetic batting. Back and side cushions of synthetic fibre/feathers or of down/feathers. Globe-shaped legs in stained beech. Armrest covers included.

CARE INSTRUCTIONS Feather cushions are sewn in three sections and uniquely assembled to provide the best possible seating comfort. All types of feather cushions need to be puffed up to maintain their resilience. Shake and puff up the cushions regularly and knead them to loosen up any feather bunches.

The legs are screwed on and may need to be tightened from time to time. For additional protection we recommend using extra covers for the armrests. Svenskt Tenn also offers stain guarding for further protection.
