

SOFA 968

WITH SOFA 968, DESIGNED in the late 1930s, Josef Frank broke with the traditions of the time by creating a gentle curve in the back and a more substantial inward bend in the front of the sofa. This piece of furniture was nicknamed the “banana sofa” due to its gently curved form.

SOFA 968

MATERIAL Wooden frame. Core of coil springs on a no-sag spring base, stuffed with foam rubber/polyether and synthetic batting. Cushions of synthetic fibre/feathers in downproof cases with removable fabric covers. Globe-shaped legs in stained beech. Armrest covers included.

CARE INSTRUCTIONS Feather cushions are sewn in three sections and uniquely assembled to provide the best possible seating comfort. All types of feather cushions need to be puffed up to maintain their resilience. Shake and puff up the cushions regularly and knead them to loosen up any feather bunches.

The legs are screwed on and may need to be tightened from time to time. For additional protection we recommend using extra covers for the armrests.
