

# CHAIR P5

DESIGNER: JOSEF FRANK, 1920s

Josef Frank designed several bentwood chairs during the late 1920s, some of which were produced for Thonet Mundus AG in Vienna. Chair P5's original sketch is preserved in Svenskt Tenn's archives and has probably never been in production before. Josef Frank considered a dining chair to be so light that it could be lifted with one finger and that the user easily could move the chair in the room. With its openwork back of lathed sticks Chair P5 gives an airy impression.

## CARE INSTRUCTIONS

Svenskt Tenn's furniture is made from wood that is varnished or coated. Clean with a soft cloth dampened with mild dish detergent or soapy water. Dry with a soft cloth. Do not expose the furniture to prolonged humidity or direct heat or use polish, oil or abrasive cleaners on the furniture. Also avoid exposing the furniture to large changes in temperature and humidity.

Contact a furniture restorer if the coating or wood gets damaged, as it can get worse if not tended to.
